SUMMARY

Third-year Computer Systems Technology (Advanced Diploma) student at Durham College with hands-on experience in Windows Server administration, Active Directory, and end-user support, plus over two years of on-site technical troubleshooting as a Bell Field Service Technician. Seeking a part-time, full-time, or field placement role in IT support, systems administration, or technical support.

TECHNICAL SKILLS

Systems & Administration: Windows Server 2022, Active Directory (AD DS), Group Policy (GPO), DNS, DHCP, NTFS Permissions, Security Auditing, Windows OS, Basic Linux
Networking & Support: TCP/IP, LAN, Hardware & Software Troubleshooting, End-User Support, Microsoft Office

TECHNICAL PROJECTS

Windows Server 2022 Active Directory & Network Administration Project **Jan 2026**

- Deployed and configured a Windows Server 2022 enterprise environment in a virtualized lab
- Installed and managed Active Directory Domain Services, DNS, and DHCP
- Created Organizational Units, users, and security groups using role-based access control
- Designed and implemented Group Policy Objects for password policies, screen lock timers, drive mappings, and control panel restrictions
- Configured NTFS permissions and departmental file shares aligned with security best practices
- Implemented file access security auditing and validated events using Event Viewer (Event ID 4663)
- Joined client systems to the domain and verified policy application using gpresult and gpupdate
- Diagnosed and resolved real-world issues related to DNS misconfiguration, GPO processing, drive mapping, and auditing failures

Network Security Coursework (Security I) **Fall 2026**

- Comparative analysis of Cisco Firepower 1010 and Fortinet FortiGate 40F firewalls
